GREEN.  
EVENTS

It goes without saying that ecological criteria are met, and the festival has therefore been awarded the 'Green Events' label. More at: [www.greenevents.lu](http://www.greenevents.lu)

Please bring your own bags

Incidentally, the photo was taken the morning after the last Oekofest. Impressive: not a single piece of rubbish on the street, far and wide. Green events work!

## Note: Remember before the Oekofest!

In this brochure, you will find a range of activities for which it would be helpful if you could register in advance or, if you are interested, bring 'something' with you.

**Guided tours – registration recommended (see pp. 6-8)**

**Clothing exchange (p. 9) and clothing upcycling (see p. 24)**

# The Oekofest introduces itself

In 2025, the Oekofest will once again be a true "festival for everyone." It will spread across large parts of Pfafenthal and, in just one day, offer an extremely diverse program.

Take the opportunity to discover the charming Pfafenthal with its authentic flair and stories, while at the same time enjoying live music, the especially varied family-friendly activities in 2025, and by joining one of the offered guided tours, workshops, or one of the many other activities—such as the stands of the 20 exhibitors and the culinary delights.

And of course: meet friendly people right after the summer holidays and kick off the "entrée" together.

**A visit is definitely worthwhile: come and join us!**

The FestiVélo offers numerous activities related to cycling: national and international entertainment, various stands: bicycle course, Cycles Comiques Olm, German Bicycle Museum, Vélofussball, art bikes with coffee and food bikes. It's well worth a visit.

As a little incentive to visit both festivals, you will receive a stamp card at the stand of the organisers (ProVelo and Mouvement Ecologique). Get a stamp at both and take part in a prize draw for an attractive prize!

Immerse yourself in the history of Pfaffenthal and learn more about the cultural landscape and the attractive nature of this diverse district. The number of participants for the guided visits (except the move. Rallye) is limited. Therefore, registration is recommended: [inscription@meco.lu](mailto:inscription@meco.lu).

Of course, you can also join spontaneously—unless the event is already fully booked. As far as possible, any fully booked events will be indicated on [meco.lu](http://meco.lu).

**Meeting point for the guided visits: at the stand of Mouvement Ecologique.  
The visits are in Luxembourgish**

1:00 p.m.

## PFAFFENTHAL: A LIVELY CRAFTSMEN'S QUARTER – OF TURNIP PEELERS, UMBRELLA MENDERS, WATER CARRIERS, TANNERS AND WEAVERS

Did you know? In the past, numerous craftsmen were based in Pfaffenthal—especially those who depended on water: washerwomen and water carriers (who laboriously hauled drinking water up to the upper town), millers, weavers, tanners, dyers... And Pfaffenthal even had the city's very first hospital, including a maternity ward.

Discover the traces of this era ... and the hidden "ice cellar," which in former times allowed goods to be kept well chilled throughout the year.

Visit: approx. 1 hour, not suitable for strollers.

Organization: Interessenverein Pafendall-Sichenhaff asbl

2:00 p.m.

## EXCURSION THROUGH PFAFFENTHAL

Join Roger Schauls, biologist and nature expert, on a short excursion through Pfaffenthal. With great enthusiasm and expertise, he will show you the fascinating nature in and around the valley and open your eyes to the often inconspicuous animal and plant life right "on your doorstep."

Duration: 1 hour

3:00 p.m.

## PFAFFENTHAL – CLAUSEN: VALLEY AND HILL HIKE THROUGH A SPECIES-RICH CULTURAL LANDSCAPE

The diversity of the districts of Pfaffenthal and Clausen is impressive: The resources used by humans are numerous: the river (the Alzette, along with abundant springs and fountains) supported countless activities in the valley area since the Middle Ages (mills, breweries, tanneries, laundries, public baths...). The fertile alluvial land and the favorable microclimate gave rise over time to lush gardens (e.g. the Dominican Garden, the pleasure garden of the estate "La Fontaine" of Count Mansfeld). The valley basin, enclosed by steep rocks, also offers species-rich biotopes along the slopes and wooded heights. The guided hike, led by historian Marc Schoellen, provides expert insights into this unexpected wealth of culture and nature in such a small area. It explores the side valley of the "Hiel," ascends to the heights of the "Drei Eechelen," and ends with a riverside walk along the Alzette from Clausen to Pfaffenthal.

Duration: approx. 1.5 hours; suitable footwear required. Not accessible for strollers.

4:00 p.m.

## THE 7 GATES OF THE EICH GATE UP TO THE FISH MARKET

Luxembourg is a fortress city, and accordingly, there are numerous different "gates" to be found—especially in Pfaffenthal and its immediate surroundings. What connects these witnesses of history? When were they built? What was their strategic function?

Learn more about these remarkable landmarks of our city during this little journey through time along the western slope of the valley.

Visit: approx. 1 hour, not suitable for strollers.

# *Inspiring and hands-on practical workshops*

If you would like to get actively involved, you are welcome to participate in various workshops or hands-on activities on a wide range of topics.

Most of the workshops will take place throughout the day at the various exhibitors' stands (see list on p. 10).

However, one workshop is also offered at a fixed time in the Oekozenter (see below).

2:30 p.m.

## WORKSHOP ON SMART-PHONES: BUY A NEW ONE, A REFURBISHED ONE, SECOND-HAND...? (in Luxembourgish)

The average lifespan of a smartphone is less than 3 years for 43% of users – a real waste of resources!

But what alternatives are there? This workshop aims to provide answers to questions you may also be asking yourself:

- New purchase with a high repair score or a refurbished device – what are the pros and cons?

- What does the new EU energy label reveal about durability, repairability, protection classes, and charging cycles?

- What are the differences between, for example, a "Fairphone" and other brands?

The hands-on workshop by Camille Muller, Oekotopten (duration: approx. 1 hour), is aimed at everyone interested – including people from the youth and education sector.

## OTHER WORKSHOPS

At the end of September it's harvest time – and that means a hearty minestrone made from colorful regional vegetables or a creamy vegetable velouté should not be missing. You'll find both delicacies at the Veggie-table stand at the Oeko-zenter.

## L'Oekofest 2025 se présente

Après le succès retentissant des précédentes éditions de l'Oekofest, le Mouvement Ecologique et l'OekoZenter Pfaffendall vous invitent cordialement à l'édition 2025.

Celle-ci est particulièrement attrayante, avec un programme encore plus riche et varié que les années précédentes. L'Oekofest est répartie sur plusieurs endroits dans le quartier du Pfaffenthal, **les rues concernées sont fermées à la circulation.**

**Au programme :** Plongez dans plus de 20 stands d'exposition : découvrez des produits intéressants, en passant par les fleurs, la poterie aux produits alimentaires, et laissez-vous conseiller sur des stands thématiques consacrés à l'énergie ou à la biodiversité.

De plus, pour ceux qui recherchent une expérience plus immersive, **des visites guidées** (en langue luxembourgeoise), un rallye etc. vous attendent.

Préparez-vous à passer un après-midi musical avec **des concerts** (en passant du folk, rock au jazz et Pop) qui animeront l'évènement tout au long de la journée. Des ateliers créatifs inspirants (de l'upcycling de vêtements à des travaux d'artisanat traditionnels) complètent l'offre.

Par ailleurs, **un très large programme d'animation pour petits et grands**

(clowneries, divers jeux, show de Georges Christen, théâtre...) garantit une expérience passionnante pour tous les âges.

Il est évident qu'**une offre culinaire** est assurée et reflète l'engagement en faveur de la durabilité. Les offres préparées à partir d'ingrédients issus de l'agriculture biologique ou par des petits producteurs incluent bien évidemment de bons plats végétaliens et végétariens... **et des délicieux cocktails, il y en a pour tous les goûts !**

Mais le charme de cette journée réside bien au-delà des événements programmés : **c'est une opportunité de se retrouver, d'échanger et de tisser des liens d'amitié.**

L'événement se déroule au cœur du Pfaffenthal, **un quartier au charme indéniable**. Profitez de cette occasion pour vous immerger dans son authenticité.
